PLYMOUTH  
SCIENCE PARK

## Who can you trust to answer your business calls?

Missed calls mean lost business opportunities!

- You don't want your calls answered by someone who doesn't know or care about your business
- You don't want to be stuck with an expensive, inflexible contract
- You do want your customers to be impressed by your friendly and professional support staff – not unimpressed because you're using a call centre

Plymouth Science Park working with  
TelePA.co.uk are happy to be offering you a

**30-day free trial**

of TelePA's award winning call answering service. There is no obligation to continue with the service at the end of the trial – so this is an outstanding opportunity to see how a "virtual" call answering service works, and whether it will offer you an interesting return.

To take advantage of this trial you **MUST**  
be a tenant or service user at  
**Plymouth Science Park**

Don't delay call
